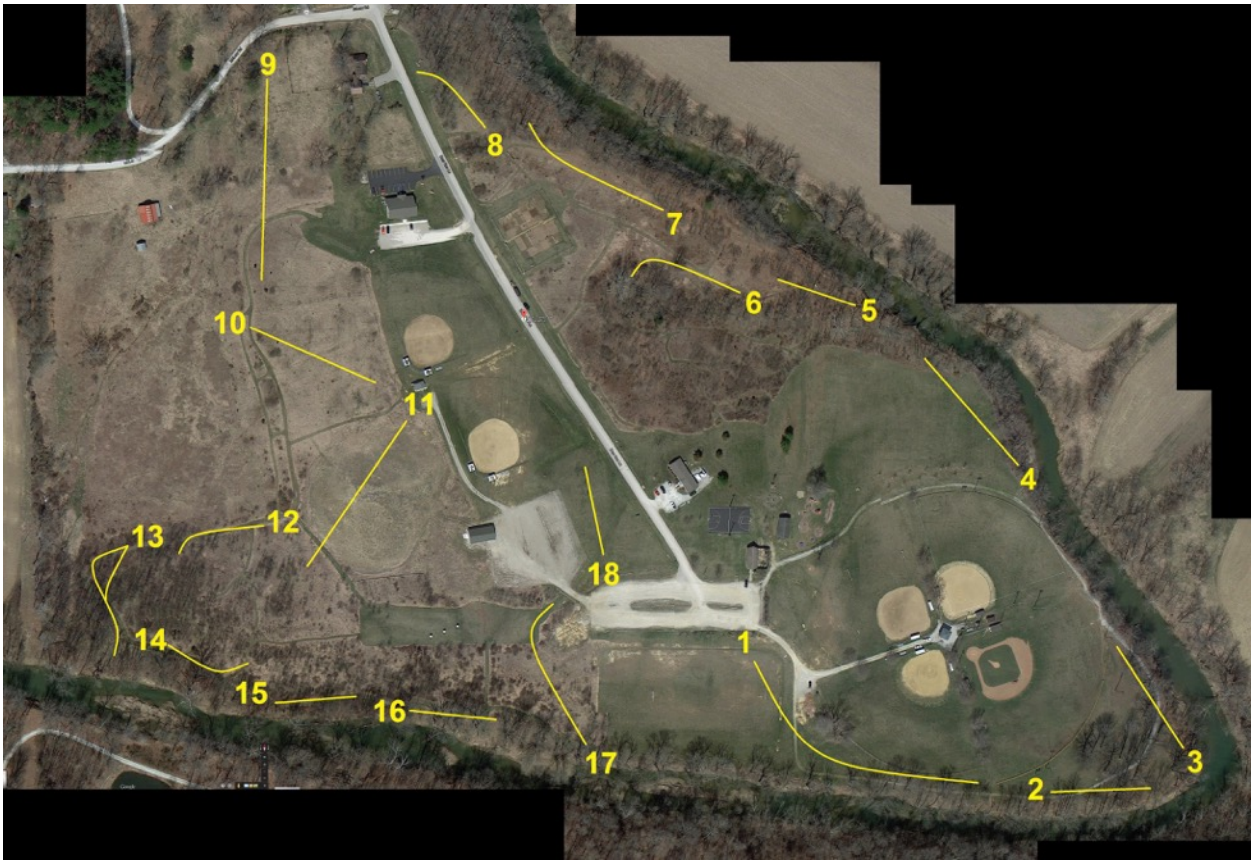
Deer Run Disc Golf Course

Second Draft - Proposed Overall Layout - October 29, 2015 - Chris Baker - BDGC



DESIGN OBJECTIVES:
-Unique holes that are memorable and replay-able and drive return trips to the park
-Logical flow that minimizes extra walking between holes finishes close to start
-Minimize risk to other players and park patrons
-Minimize disruption to nature in the park
-Fair holes that challenge advanced players; would meet criteria for a high level event
-Fair holes that are both fun and challenging for beginning players
-Minimize loss of discs as much as layout and nature of park allows
-Minimize maintenance needs to normal mowing and weed control
-Create a course that is visually pleasing

FEATURES OF THE COURSE:
-18 holes, space available for additional temporary holes for a large tournament if needed
-Pro Tee and Amateur Tees on each hole
-Pro Par 60 course
-Some holes allow an additional basket position for additional challenge during tournaments
-Utilizes O.B. (Out-of-Bounds) on some holes to protect athletic fields and garden
-Caution and directional signage around nature trail to warn walkers of flying discs
-“Front 8” and “Back 10” flow starts and ends near parking, bathrooms, shelter, office
-Limited walking between holes often along existing nature trail
-First 3-4 holes more open creating a nice beginner loop that could be played multiple times
-Retains a large area of wild grasses and flowers, especially around office and garden

STARTING AREA

Some future projects (maybe an Eagle Scout Project) could involve construction of an archway denoting “Deer Run Disc Golf Course” and a large starting sign with message board to post course maps and scorecards as well as information regarding tournaments and weekly leagues.
